The Computer, Library and Information Management (CLIM) committee typically meets once each month (the first Friday) during the regular school year. This year the CLIM committee was chaired by Randy Berghefer. The CLIM committee is responsible for the distribution of the student computer fee funds that are allocated to the College by the University Computation Advisory Committee (CAC). Currently, the College is allocated approximately $105,400 by the CAC. When the student computer fee was established, the guidelines stipulated that funds allocated to Colleges were to be distributed by a committee whose membership consisted of half students and half faculty/staff. We fulfill this mandate by employing an e-mail voting system when a quorum is not available to meet, so that every eligible voting member of the committee can vote on issues before the committee. Typically, nearly all decisions have been made by consensus of the membership.

The CLIM had another successful year and supported many initiatives that contributed significantly to enhancing the computer and information technology services of the College.

CLIM fully supports the mobile computer initiative. ECHO capturing and wireless access points are significantly funded by CLIM. In 2009, CLIM voted to add additional wireless access, leading to a total access cost of $21,130.39. At the beginning of the year, CLIM was paying $1,392.39 per month for wireless access. Throughout the academic year, additional wireless access was added based on student requirements, bringing the total investment to $1,956 per month.

In 2009, CLIM utilized several ITS services, including disk usage and printing, at a cost of $7,130.26. Paper, toner and maintenance costs related to student printing averaged approximately $7,000 per month.

Use of the ECHO capture system continues to increase with nearly 30 courses being released to students on a regular basis. There has been some concern among faculty regarding the security of the videos, based on the discovery on unauthorized student sharing.

CLIM had adequate resources to allow small grant proposals to be submitted to CLIM for approval, as long as the proposals supported the student initiative. Below is listing of the proposal that were funded by CLIM.

Carryover money will be used to maintain a sufficient paper and toner supply during the summer months. This money will also be used for software maintenance, computer and printers upgrades and repairs.
In summary, the CLIM committee has had a very busy and successful year. Despite the fiscal challenges faced by the College and University, CLIM was able to minimize impact on students and continue to meet their growing needs. As chair of the CLIM committee I would be remiss if I did not thank each of the members of the CLIM committee (see below) who served the committee and the college very well.

2008-2009 CLIM Committee Members:

**Faculty / Staff Members**

Randy Bergher, Chair (VDPAM)
Bryan Bellaire (VMPM)
Larry C. Booth (VCS)
Joshua Mack (ADMIN)
William Robertson (BMS)
Deb Hoyt (VPATH)
Alex Ramirez (VDPAM)
Mark Slagell (VMC)
Timothy Frana (VDPAM)
Jana Lande (VETS)
Andrea Dinkelman, Library Representative, Ex-officio

**Student Members**

Elizabeth Harriman 2010
Emily Petersen 2010
Dean Feasenhiser 2011
Emily Meyer 2011
Rachelle Pumphrey 2011
Michael Swann 2012
Ethan Abrams 2012
Lisa Trout 2013
Drew White 2013
