Mathematica Installation for Students (Windows)

1. Click Start
2. Click or type Run
   a. In Microsoft XP you will need to click Run, which is found in the bottom right hand corner of the Start menu
   b. In Windows Vista or Windows 7, you will need to type run in the search box found on the Start Menu and then click Enter
3. Enter `\mcacd3.iastate.edu\mathematica` and press Enter
4. If prompted for a username and password enter:
   a. Username: IASTATE\NetID
   b. Password: password associated with NetID
5. Double click on the ‘Students’ folder
6. Double click on the ‘Windows’ folder
7. Double click on ‘Mathematica 7.0.1 Windows’ (This may take a few minutes)
8. Click ‘Run’ when the dialog pops appears
9. Another dialog box will appear that says ‘Wolfram Mathematica for Students Setup’ – Click ‘Next’
10. Click ‘Next’ again
11. Click ‘Next’ again
12. Click ‘Next’ again
13. Click ‘Install’
14. Click ‘Finish’
15. The program will load, and you will see two options: ‘Enter Password’ and ‘Continue’ – Click ‘Enter Password’
16. Select Single-Machine License and enter the organization and license number exactly how it appears below:
   Name: {your name}
   Organization: Iowa State University
   License number: L3273-1374
   Click ‘OK’
17. Another dialog box will appear with your MathID an input box for a password – copy the MathID
   a. Click on the Web button next to the Password input field
   b. Select ‘Windows; 7.0.1; Single User; 8 Controlling Process, 16 computational processes’
   c. Click ‘Continue’
   d. Paste the MathID in the MathID input box
   e. Click ‘Continue’
   f. Enter in personal information (must enter Iowa State email address) and click ‘Continue’
   g. A password will be sent to your email address
18. After you receive the password through your email (which may take an hour or two to receive) copy the password and paste it into the password box in Mathematica
   a. The email will contain the content for your mathpass file in this format:
      i. Machinename, MathID, License Number, Password
19. Click ‘Ok’ and Mathematica will open. You will see the welcome menu appear with tips on getting started
